EROSION CONTROL ROADSIDE DEVELOPMENT - FERTILIZER TOPDRESSING

PROJECT: _____

TECHNICIAN: _____

REVIEW DATE: _____

REVIEWER: _____

ACTION	YES	NO	N/A	COMMENTS
Topdress established vegetation every fall and spring.				
Take proper precautions to protect traffic, structures, guardrails, traffic control devices, and other appurtenances.				
Calibrate the equipment and inspect to ensure uniform distribution. Ensure the area to be topdressed is stable enough to support any equipment used in this operation without rutting or losing the area's shape.				
Calculate the proper rate for the fertilizer analysis being used.				
Keep proper records and documentation with the analysis recorded so that proper payment can be made.
